(Rock County, WI) – Rock County 5.0 announced the release of an interactive, online business directory that contains Rock County manufacturing, logistics and wholesale company information. Compiled from both primary and secondary sources, this is the first, single-source directory made available to the public free of charge. This [Manufacturing & Logistics Directory](#) complements the previously released [Business-2-Business Directory](#), which is dedicated toward service-orientated firms.

“Access to real-time intelligence plays a critical role in today’s business environment. As Rock County businesses continually explore or evaluate supply chain considerations, we encourage them to look locally and this Directory provides that opportunity,” said, Rock County 5.0 Co-Chair Mary Willmer-Sheedy. These remarks were echoed by her Co-Chair Diane Hendricks, who noted, “As we’ve grown our portfolio of companies, we’ve made it a priority to look locally first. Having access to the type of information available from this Directory will expedite connections among and/or between existing, as well as prospective, Rock County businesses.”

To access these directories, visit the “Business Resources” section online at www.rockcountyalliance.com and then select the appropriate drop-down menu option. A sampling of the information available from the Manufacturing & Logistics Directory is provided below.
